Official Paper of Cochise Co.
FRIDAY DECEMBER, 22, 1892.

The Jerome Hustler has added a min-
ing department to that already interest-
ing paper and gives a vivid description
in detail of the mines and mining opera-
tions of Jerome and the Verde mining
district.

Gen. Joe Wheeler and Mr. Roberts
of Utah can form a sympathetic associa-
tion. The first cannot draw his pay
as congressman because he has too many
government jobs, and Mr. Robert is not
on the pay roll because he has too many
wives.

BALTIMORE has a most beautiful char-
acter. It is called the Empty Stocking
Club, and the particular mission of the
club is to fill empty stockings at Christ-
mas time. The Salvation Army officers
of El Paso are engaged in the same no-
ble work.

The mineral value of our western
mountains, says the Mining News, is
just as valuable a source of wealth as
are those of the agricultural lands of the
United States, and money invested in
the one is just as safe and secure as in
the other, but with this difference: The
profits or income from our mineral re-
sources through mining are immensely
greater and quicker than are possible to
be expected from agricultural resources
through farming. The business of ex-
tracting the minerals from their ores is
as legitimate as any other occupation or
profession, while it is much more fasci-
nating and profitable. "There is an
other element of satisfaction in mining
to men and women of conscience," adds
the News; "Riches in many businesses
come through oppression, and from tak-
ing advantage of the necessities and ad-
verse conditions of fellow men. Not so
in mining. There is no blood on the
golden treasure dug from the earth. It
is clean, and the way the wealth is got
ten is clean."

The death of General Henry Lawton
in the Philippines on Tuesday was a se-
rious loss to our army and to the coun-
try at large. There was no officer of this
country whom our people respected
more, or in whose soldierly ability they
had more confidence. While he was not
a West Point graduate, his many years
of active service in the army had made
up for any deficiencies as a military
leader that might by reason of that fact
have been thought to have hampered
him. General Lawton was a born sol-
dier and pre-eminently a fighter. Un-
fortunately, as the circumstances of his
death proved, he was even too reckless
of his personal safety. He was always
a leader of his men, not a follower. He
died at the head of his troops and in a
moment of victory, as a true soldier
wishes to die. His death is of especial
interest in this section, since he served
both at Fort Huachuca and at Fort
Bowie for considerable periods. During
this service he became known to many
citizens of this country, and was respect-
ed and admired by them for his personal
qualities, aside from his high standing
as a brave and daring officer, tried and
proven almost at our doors.

COPPER IS THE METAL

The Cochise Copper Mining Company

Bisbee, Arizona.

This company owns a very valuable
group of mines situated in Warren
mining district, county of Cochise,
Arizona, lying immediately east of and
adjoining the town of Bisbee, and ad-
joining the property of the Copper
Queen Consolidated Mining Company
of the north. The latter company is
now in operation for about a dozen
years, and employs about 4,500 men
daily in the operation of its mammoth
mine and smelters, and as a result
has produced copper to over 34,000,000
pounds during the year 1892, and the
net proceeds of such production are
reported to have been over \$2,000,000,
and it has been said by experienced
miners who have been under its employ
that the Queen mine is so successful
that the miners who have been under
its employ have been offered employment
elsewhere, and the miners who have
been under its employ have been offered
employment elsewhere.

It is not reasonable to believe that
the property of the Cochise company is
less valuable, when it is within
such close proximity, to such a wonder-
ful mine?

The blasts set off in the underground
workings of the Queen property can
easily be felt and heard at the shaft of
our mine, and oftentimes the concussion
has attracted marked attention.

The original owners of these valuable
mines are local business men, well
and favorably known in Bisbee and
surrounding vicinity, who are doing
their utmost to make this enterprise a
success in every respect. The board of
directors are original owners, and are
donating their services to the company
until such time as the mine will
pay dividends. They own the con-
trolling interest in this property, and
as a protection to stockholders have
placed their entire interest in escrow
for a term of one year.

The stock books of our company are
now open for subscriptions, and a limited
number of shares are offered at
ten cents per share. No application for
less than 100 shares will be ac-
cepted.

The company reserves the right at
any time to advance the price of shares
without further notice, or to reject any
application for stock at their discre-
tion.

Every cent received from the sale of
stock will be expended toward the de-
velopment of our property and the
erection of hoisting works, and all
other necessary improvements, and to
make our enterprise a success in every
particular.

We invite investigators and their
experts or their engineers to closely
scrutinize our property.

Applications for shares may be made
to any of the directors of the com-
pany, or to any of our legally auth-
orized representatives.
